Project 2

STABROEK CLASSIFIEDS

Ministry of Local Government is looking for suitably qualified persons to conduct a survey in communities on recreational activities.

You have been identified by Ministry of Local Government to conduct a survey in your community on recreational activities.

1. In your own words, explain the concept “**recreational activity.**”
2. Construct a questionnaire to collect data from **twenty-five (25)** persons in your Community on recreational activities.
3. Use at least **three (3)** appropriate graphs to display the data obtained from the survey.
 - types / kinds of recreational activity that people in your community engage in.
 - places in your community where people go for recreation.
 - kinds of recreational facilities that people in your community would like to have.
 - ways in which people in the community benefit from recreation.
4. Explain / interpret the data shown on **each** graph.
5. State **three (3)** findings which **must** be based on the data from your survey.
6. Make **two (2)** practical recommendations to the Mayor and City Council / Neighbourhood Democratic Council / Village Council on how recreational facilities / opportunities in your community could be improved.
